Department of Telecommunications and Energy
Fitchburg Gas and Electric Light Company
Docket No. D.T.E. 02-24/25
Responses to the Attorney General's Fifth Set of Information Requests

Request No. AG-5-16 (Electric)

Refer to Schedule JLH-2-1, page 9-1. Please explain what specific costs are included in account 565, Transmission of Electricity by Others and why these costs are allocated to the "internal" transmission function. See JLH-2-2, page 9-1.

Response:

Account 565, Transmission of Electricity by Others, as referenced on Schedule JLH-2-1, page 9-1, consists of the following items:

Boston Edison – Hydro Quebec II	\$ 2,514
New England Power – Hydro Quebec II	<u>44,372</u>
Total	\$46,886

These costs are allocated to the "internal" transmission function since they are included in Pool Transmission Facilities ("PTF") costs pursuant to the formula rate provisions of NEPOOL's Open Access Transmission Tariff. Pursuant to FG&E's Internal Transmission Service Cost Adjustment tariff, PTF costs are designated for recovery under FG&E's Internal Transmission Charge and therefore these costs are allocated to "internal" transmission accordingly.

Person Responsible: Karen M. Asbury
